

ChurchSuite for St Paul's, St Albans – Part 2 – MyChurchSuite

If you need help logging in, please see part 1.

Featured events

The next upcoming three featured events are shown. More events can be seen by clicking on (or selecting the menu item) 'My Events'. You can check on the details of an event by clicking on it and sign up (if required).

My Communication

This shows a log of communications sent from ChurchSuite involving you. There should be a copy of the Invitation email sent to you!

Securing access to your phone

Remember – you have access to people's details, so please ensure your phone's access is security protected. You can set a PIN (or fingerprint security on Apple) for ChurchSuite by selecting 'Pin' (or 'Pin and Fingerprint on Apple) from the Menu.

You can log out of the app, but that means you have to log in the hard way. If you secure your phone (by PIN for example), you should not need to log out.

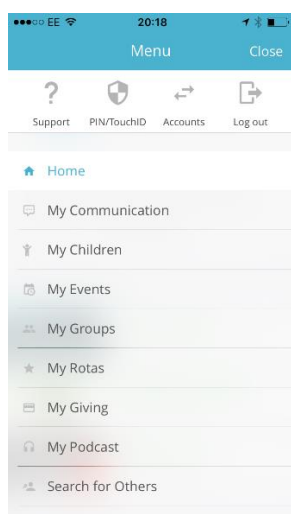

Other Menu items

Not all users will have all menus. The full list is shown below. We are not currently set up for Giving and are not planning to use Podcasts – Sermons will remain available on the web site www.stpauls-stalbans.org/sermons

If you are on a Rota, 'My Rota' will be shown. You can see your upcoming commitments on all the rotas you are currently active in.

If you have children on the system, you will see 'My Children'. Children are not normally given a login and they are managed through the parent(s). By default, Children are associated with the Mother, but this may not universally be true! Their details are not available to view by others.

Groups – currently this is only used by Admins.
